

# SPRAY 2000

## Adhesive lubricant

### Description

Long-acting, fully-synthetic, high-pressure-resistant lubricant for universal application. Penetrates rapidly and protects from corrosion. Thermally stable against - 30 °C to + 200 °C. Adhesive, water resistant, silicone free, pressure and impact resistant, colourless.

### Field of application

MOTOREX SPRAY 2000 is perfect for universal lubrication, in particular for items under high levels of compressive stress, such as carburettor controls and clutch linkages, Bowden cables, hinges, pivot arms etc.

### Application

Spray the surface briefly approx. 5–10 cm away and allow to dry. Repeat as necessary.

### Advantages

- adhesive
- lubricating
- Corrosion protection
- water-resistant
- impact resistant
- temperature-stable

### Notes

Shake can before use.

### Sizes

500ml

SAP-Nr.	Product name	packaging unit
302271	SPRAY 2000 500ml D00	1 x 500ml
302272	SPRAY 2000 500ml K12	12 x 500ml
